

WE ARE SEARCHING FOR DISTRIBUTOR OR AGENT IN YOUR COUNTRY!

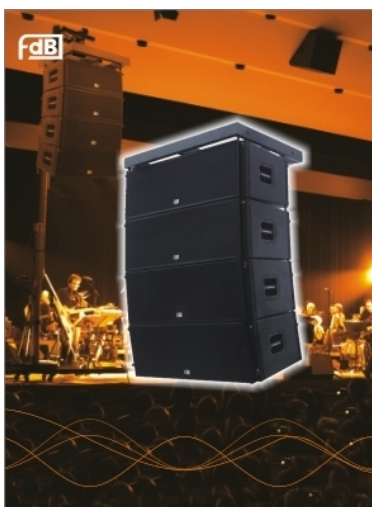

Line array loudspeaker for medium scale sound reinforcement

- High power, wide bandwidth, superior bass impact – all horn design
- Fast integral rigging system with variable angles
- The cylindrical wave segments of each cabinet will couple without gaps and sum up coherently

LA205 Superior for custom installations

- Using LA205 flying frame it can be flown in vertical columns with 120° constant dispersion pattern in the horizontal plane.
- Common grid may be used for flying or ground stacking
